
Steps to Download and Run the Project

1. Clone the Repository:

Open a terminal or command prompt and run:

2. `git clone https://github.com/arunkumarthangam22/Driver-Drowsiness-Detection-System.git`

3. Go into the Project Directory:

4. `cd Driver-Drowsiness-Detection-System`

5. Create a Virtual Environment:

- For Windows:
 - `python -m venv drowsinessenv`
 - `venv\Scripts\activate`

1. For macOS/Linux:

1. `python3 -m venv venv`
2. `source venv/bin/activate`

6. Install Dependencies:

7. `pip install -r requirements.txt`

8. Run the Project:

Depending on the project structure, you may need to run a Python script to start the application. Try:

```
python detect_drowsiness.py
```
